KEN HIPPLER, DJ "GOOD & COUNTRY", KFAI, 90.3 MINNEAPOLIS/106.7 ST. PAUL

Leyla's journey to her first album has been anything but a straight line. From foreign language and culinary studies in the U.S. & abroad to climbing the corporate ladder in Latin America and Europe, her experiences & the shenanigans of the characters she encountered along the way provide fodder for the true stories told on the album. With her wanderlust satisfied, Leyla has settled again on Texas soil where her love for traditional country music began & where she continues writing and kicking up dust at Texas dance halls, opry houses & festivals.

*Liars, Cheats & Fools* has garnered critical acclaim, received immediate airplay & recognition in Europe and Australia & has been a top-selling album at national independent music stores since its release.

*"Leyla is proof that honky-tonk is still alive and well and fun to listen to when done well. At a time when country music doesn't sound like country music, Leyla Fences is a breath of fresh air."* ANDREA GUY, MOSSIP

*"An ensemble of well-crafted, crowd-pleasing, dance-inducing toe-tappers that will find a home in your disc player for an extended stay. This is an excellent project from start to finish."* LUCKY BOYD, MYTEXASMUSIC.COM

*"If you like real, honest-to-goodness Texas country music, you can't go wrong with Leyla Fences. If you take your country like your whiskey, straight with no chaser, then this is the disc for you."* DAN MACINTOSH, REVIEWYOU

*"Leyla Fences has a voice that you'll remember after you've heard it once...the classic sound and unvarnished approach is going to appeal to a lot of the regular fans out there that wonder 'what happened to country music?'"*
